## **AHV/IV/EO Beitragstabellen: Selbständigerwerbende**

(siehe auch Wegleitung über die Beiträge der Selbständigerwerbenden und Nichterwerbstätigen in der AHV, IV und EO, Rz 1177 ff.)

Die Beiträge der Selbständigerwerbenden mit einem beitragspflichtigen Einkommen bis 164'900 Franken können der Tabelle auf den Seiten 6-25 entnommen werden, indem man den Einkommensbetrag auf die nächsten 100 Franken abrundet und den Jahres-, Quartals- oder Monatsbeitrag abliest (die Jahresbeiträge sind so gerundet, dass sie stets durch 12 teilbar sind). Übersteigt das Erwerbseinkommen diesen Betrag, so ist der Jahresbeitrag von 10.00 Prozent ohne Tabelle auszurechnen. Der abgerundete jährliche Einkommensbetrag ist in das IK einzutragen.

Erreicht das jährliche Erwerbseinkommen nicht den Betrag von 9'800 Franken, so beträgt der Beitrag 514 Franken im Jahr oder 42.80 Franken im Monat. Ihm entspricht ein IK-Eintrag von 9'701 Franken im Jahr oder von 791 Franken im Monat.

Bei Selbständigerwerbenden im Rentenalter werden die Beiträge nur auf einem um einen Freibetrag (zur Zeit 16'800 Franken im Jahr bzw. 1'400 Franken im Monat) reduzierten Einkommen erhoben. Ist bei solchen Personen das um den Freibetrag reduzierte Einkommen kleiner als 9'800 Franken im Jahr (808 Franken im Monat), so wird nicht der Mindestbeitrag erhoben, sondern ein mit dem niedrigsten Beitragssatz (5.371%) errechneter Beitrag gemäss Tabelle auf Seite 27.

## **Tables des cotisations AVS/AI/APG: Indépendants**

(voir aussi les nos 1177 ss des Directives sur les cotisations des travailleurs indépendants et des personnes sans activité lucrative dans l'AVS, AI et APG).

Les cotisations des assurés ayant une activité lucrative indépendante dont le revenu soumis à cotisation va jusqu'à 164'900 francs peuvent être lues dans la table aux pages 6-25. A cet effet, on arrondit le montant du revenu aux 100 francs immédiatement inférieurs et on lit dans la table la cotisation annuelle, trimestrielle et mensuelle correspondante (les cotisations annuelles sont arrondies de telle manière qu'elles sont toujours divisibles par 12). Si le revenu du travail dépasse 164'900 francs, la cotisation annuelle de 10.00 pour cent doit être calculée sans l'aide de la table. Le montant arrondi du revenu annuel doit être inscrit dans le CI.

Si le revenu annuel du travail n'atteint pas 9'800 francs, la cotisation s'élève à 514 francs par an ou 42.80 francs par mois. Le revenu correspondant à cette cotisation à porter au CI est de 9'701 francs par an ou 808 francs par mois.

Les cotisations des personnes de condition indépendante qui ont atteint l'âge ouvrant le droit à une rente de vieillesse ne seront perçues que sur la part du revenu de cette activité qui excède 16'800 francs par an ou 1'400 francs par mois. Si leur revenu, diminué de cette franchise, n'atteint pas 9'800 francs par an ou 808 francs par mois, ce n'est pas la cotisation minimum qui est perçue, mais la cotisation calculée d'après le taux le plus bas du barème dégressif (5.371%) selon le tableau de la page 27.

# Tabelle dei contributi AVS/AI/IPG

## Indipendenti

(vedi anche Direttive concernenti i contributi dei lavoratori indipendenti e delle persone senza attività lucrativa, N. 1177 segg.)

Dalla tabella alle pagine 6-25 possono essere rilevati i contributi delle persone esercitanti un'attività lucrativa indipendente con reddito imponibile fino a 164 900 franchi. A tale scopo, l'importo del reddito è arrotondato per difetto ai 100 franchi; dalla tabella si rileva poi il corrispondente contributo annuo, trimestrale e mensile (i contributi annuali sono arrotondati sempre in modo da essere divisibili per 12). Se il reddito supera 164 900 franchi, il contributo annuo del 10.00 per cento deve essere calcolato senza utilizzare la tabella. L'importo arrotondato del reddito annuo deve essere iscritto nel CI.

Se il reddito annuo è inferiore a 9800 franchi, il contributo ammonta a 514 franchi all'anno o a 42.80 franchi al mese. Il reddito corrispondente a questo contributo da iscrivere nel CI è uguale a 9701 franchi all'anno o a 808 franchi al mese.

I contributi dovuti dalle persone che esercitano un'attività lucrativa indipendente che hanno raggiunto l'età conferente il diritto a una rendita di vecchiaia sono riscossi su un reddito ridotto (importo esente: 16800 franchi all'anno o 1400 franchi al mese). Se dette persone conseguono un reddito inferiore a 9800 franchi all'anno (808 franchi al mese) dopo deduzione della franchigia, non viene riscosso il contributo minimo, bensì un contributo calcolato con il tasso contributivo più basso (5.371%), come indicato a pagina 27.

**AHV/IV/EO Beitragstabellen:**

**Selbständigerwerbende, die als Frauen das 64. und als Männer das 65. Altersjahr vollendet haben und deren Einkommen nach Abzug des Freibetrages unter 9 800 Franken im Jahr (808 Franken im Monat) liegt**

Liegt für den genannten Personenkreis das um den Freibetrag von 16 800 Franken im Jahr (1 400 Franken im Monat) reduzierte Einkommen unter 9 800 Franken im Jahr (808 Franken im Monat), so findet der niedrigste Ansatz der sinkenden Beitragsskala Anwendung gemäss Tabelle auf Seite 27.

**Tables des cotisations AVS/AI/APG:**

**Indépendants, qui ont accompli leur 64<sup>e</sup> année pour les femmes et leur 65<sup>e</sup> année pour les hommes et dont le revenu est inférieur à 9 800 francs par an (808 francs par mois) après déduction de la franchise**

Si le revenu de cette catégorie de personnes n'atteint pas 9 800 francs par an (808 francs par mois), déduction faite de la franchise s'élevant à 16 800 francs par an (1 400 francs par mois), c'est le taux le plus bas du barème dégressif qui est appliqué selon le tableau de la page 27.

**Tabelle dei contributi AVS/AI/IPG:**

**Indipendenti, che hanno compiuto i 64 anni (per le donne) o i 65 anni (per gli uomini) e il cui reddito dopo deduzione della franchigia è inferiore a 9 800 franchi l'anno (808 franchi il mese)**

Se, per le persone precitate, il reddito è inferiore a 9 800 franchi l'anno (808 franchi il mese), dopo deduzione della franchigia, che ammonta a 16 800 franchi all'anno (1 400 franchi al mese), deve essere applicato il tasso più basso della tavola scalare dei contributi, come indicato a pagina 27.

## **AHV/IV/EO Beitragstabellen:**

### **Nichterwerbstätige**

(siehe auch Wegleitung über die Beiträge der Selbständigerwerbenden und Nichterwerbstätigen in der AHV, IV und EO, Rz 2001 ff.)

Für die Berechnung des Beitrages ist das Vermögen einschliesslich des mit 20 multiplizierten jährlichen Rentenbetrages auf die nächsttiefere Vermögensstufe abzurunden.

Die Beiträge können direkt der Tabelle auf den Seiten 29-31 entnommen werden, wenn der Beitragspflichtige nur über Vermögen oder nur über Renteneinkommen verfügt. Hat der Nichterwerbstätige nebeneinander Vermögen und Renteneinkommen, so wird der mit 20 multiplizierte Betrag der jährlichen Rente zum Vermögen hinzugezählt und der Beitrag nach dem sich so ergebenden Vermögensbetrag berechnet.

Für den IK-Eintrag kann in den beiden letzten Kolonnen das dem Jahres- oder Monatsbeitrag entsprechende Erwerbseinkommen entnommen werden. Dauert die Beitragspflicht weniger als ein Jahr, aber mehr als einen Monat, so ist für die Ermittlung der Beiträge und des IK-Eintrages der Monatsbeitrag und das ihm entsprechende monatliche Erwerbseinkommen in der Tabelle abzulesen und mit der entsprechenden Zahl der Monate zu vervielfachen. Semester- und Quartalsbeiträge können direkt der Tabelle entnommen werden.

## **Tables des cotisations AVS/AI/APG:**

### **Assurés sans activité lucrative**

(voir aussi les nos 2001 ss des Directives sur les cotisations des travailleurs indépendants et des personnes sans activités lucratives dans l'AVS, AI et APG.)

Pour calculer la cotisation, on arrondit la fortune à la tranche de fortune directement inférieure, compte tenu du revenu annuel acquis sous forme de rente multiplié par 20.

Lorsque l'assuré ne dispose que d'une fortune ou que d'un revenu sous forme de rente, les cotisations ressortent d'emblée de la table publiée ci-après aux pages 29 à 31. Dans les cas où l'assuré dispose à la fois d'une fortune et d'un revenu sous forme de rente, le montant de la rente annuelle multiplié par 20 est ajouté à la fortune et la cotisation calculée sur le montant de la fortune ainsi obtenu.

Pour l'inscription au CI, on peut lire dans les deux dernières colonnes de la table le revenu du travail correspondant à la cotisation annuelle ou mensuelle. Si l'obligation de verser les cotisations dure moins d'une année mais plus d'un mois, il y a lieu, pour calculer la cotisation et pour déterminer l'inscription au CI, de lire dans la table la cotisation mensuelle et le revenu du travail par mois lui correspondant puis de multiplier ce revenu par le nombre de mois pour lesquels les cotisations ont été payées. Les cotisations semestrielles et trimestrielles peuvent être directement lues dans la table.

## **Tabelle dei contributi AVS/AI/IPG:**

### **Assicurati senza un'attività lucrativa**

(vedi anche Direttive sui contributi dei lavoratori indipendenti o senza attività lucrativa, N. 2001 segg.)

Per calcolare il contributo, occorre arrotondare la sostanza alla soglia immediatamente inferiore tenendo conto del reddito annuo conseguito in forma di rendite moltiplicato per 20.

I contributi degli assicurati che dispongono solo di sostanza o di reddito conseguito in forma di rendite possono essere rilevati dalla tabella figurante alle pagine 29-31. Se le persone senza attività lucrativa dispongono sia di sostanza sia di rendite, l'importo annuo delle rendite è moltiplicato per 20 e addizionato alla sostanza; il contributo è calcolato su tale somma.

Per l'iscrizione nel CI, il reddito fittizio corrispondente al contributo può essere rilevato dalle due ultime colonne della tabella. Se l'obbligo di versare i contributi è durato meno di un anno ma più di un mese, bisogna, per fissare i contributi e per determinare l'iscrizione nel CI, moltiplicare il reddito fittizio che figura nella tabella per il numero dei mesi per i quali sono stati pagati i contributi. I contributi semestrali e trimestrali possono essere ricavati direttamente dalla tabella.
